

## Instructional Design & Delivery Unit Liaisons

A liaison is an Instructional Designer designated as the formal contact person in support of the instructional technology pedagogy, and quality course design and development for a particular academic unit (college, school, or department). Instructional designers are highly engaged in the development and delivery of online, hybrid and satellite programs. As some units have embedded instructional designers directly within their units, we have also designated a primary staff member within ID&D to support faculty of the unit.
